PROFESSIONAL SUMMARY

Motivated IT professional pursuing an MCA with 6 months of industry experience at Waioz Consultancy Services. Built an AI-powered role-based chatbot using React (Vite), Python Flask, Rasa AI, and MySQL — featuring 3D UI, voice interaction, and dual offline/online AI modes. Skilled in full-stack web development, REST APIs, and real-world application design. Known for a proactive mindset, strong problem-solving ability, and a continuous commitment to learning and innovation.

TECHNICAL SKILLS

- Frontend: React.js (Vite), HTML5, CSS3, Bootstrap, 3D GLB Models
- Backend: Python (Flask), Node.js
- Languages: Python, JavaScript, Java
- Databases: MySQL, MongoDB, PostgreSQL
- AI & NLP: Rasa AI, External AI APIs, Machine Learning Fundamentals
- Tools & Others: Git, Postman, REST APIs

EDUCATION

Master of Computer Applications (MCA)

Mepco Schlenk Engineering College, Sivakasi
CGPA: 8.00 / 10

Aug 2024 – June 2026

Bachelor of Computer Applications (BCA)

The American College, Madurai
CGPA: 8.40 / 10

Jul 2020 – Apr 2023

HSC – Higher Secondary Certificate

Grace Matric Hr Sec School, Madurai
Percentage: 73%

Mar 2020

INTERNSHIP EXPERIENCE

Software Development Intern | Waioz Consultancy Services Pvt. Ltd., Madurai

Dec 2025 – May 2026

Project: An Intelligent Role-Based Chatbot System for IT Organizations

Tech Stack: React (Vite), Python, Flask, Rasa AI, MySQL, REST APIs, 3D GLB Models

- Developed a full-stack role-based chatbot system for IT organizations using React (Vite), Flask, and MySQL.
- Built React (Vite) frontend with interactive 3D GLB model UI for a modern user experience.
- Designed a Python Flask backend to manage business logic, sessions, and REST API communication.
- Integrated Rasa AI (offline) and external AI API (online) for dual-mode intelligent query handling.
- Managed MySQL database for user data, chat history, tasks, and role-based access control.
- Implemented file upload and voice interaction features for file analysis and voice-based communication.

PROJECTS

Patient Food Recommendation System | Healthcare Web Platform

May 2025

Tech Stack: React.js, Node.js, MongoDB, Python

- Built a healthcare web platform combining personalized nutrition with digital medical services.
- Designed features for diet recommendations, custom diet charts, video consultations, and online pharmacy.
- Handled requirement analysis and implemented user flows for scheduling, diet download, and remote consultations.

Pet Clinic Management System | Responsive Web App

Apr 2023

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript

- Developed a responsive web application for pet healthcare management.
- Implemented modules for doctor appointments, treatment plans, and insurance management.
- Analyzed requirements and translated scope into UI pages and feature flows to streamline appointment handling.

CERTIFICATIONS AND COURSES

- Programming in Java – NPTEL (Jan 2025): OOP, exception handling, file I/O, multithreading, and GUI development.
- Java Certification – HackerRank (Mar 2025): Solved 50+ coding challenges; demonstrated strong grasp of core Java.
- Python Programming – Udemy (2024): Beginner-to-advanced Python including functions, OOP, and data handling.
- Web Development – Udemy (2024): Full-stack course covering HTML, CSS, JavaScript, and responsive design.
- AI Foundations – Infosys Springboard (2024): Machine learning fundamentals and real-world AI applications.

ACCOMPLISHMENTS

- Gyan Mitra '25 – Active coordinator for the Dept. of Computer Applications' event at Mepco Schlenk Engineering College; contributed to activity planning, quiz content creation, and team coordination.

INTERESTS AND HOBBIES

- Photography and Photo Editing
- Pencil Sketching Art
- Cricket
